PROJECTS

Interactive Portfolio Website

- Developed an engaging portfolio website using **HTML**, **CSS**, and **JavaScript** to showcase my skills and projects.
- Leveraged HTML for structured content, CSS for styling and layout, and JavaScript for interactive features, such as dynamic transitions and a personalized contact form.
- This project not only strengthened my proficiency in web development but also demonstrated my commitment to presenting information effectively in a visually appealing manner.

React-based Task Manager

- Designed and implemented a dynamic ToDo list web application using React. This project reflects my proficiency in **front-end** development and **React framework**.
- Users can add, edit, and delete tasks, with real-time updates for seamless task management. Leveraged React state management to ensure a responsive and interactive user interface.
- The project not only showcases my technical skills in React but also underscores my commitment to creating user-friendly applications that enhance productivity.
